Hi Renee,

Thank you! See below:

All wine, beer and spirits will be stored in the secured basement of the building and in storage closet next to the bar. Some unopened wine bottles will be stored behind the bar and on a wine rack for display and shelving within 10 feet of the bar. Beer and other chilled bottles will be stored in under-counter coolers behind the bar.

Alcohol will be served throughout the first floor ~~only~~, second floor and outdoor patio.

Is that what you need?

Thanks,
Katy

Katy, can you please type up a paragraph stating where all liquor will be stored and served also? I will need to type that on the license when I do them and want to make sure all areas are covered on it. Thanks. Renee

MEMORANDUM

Date: Wednesday May 20th, 2020

To: Village of Cross Plains Board

From: Ben Heidemann, P.E. – Vice President, Town & Country Engineering
Evan Chambers, P.E. – Project Engineer, Town & Country Engineering

Subject: Scope of Work Summary – SCADA and Water Sites

The Village has indicated numerous concerns related to the age and condition of various assets that make up the water utility, sanitary collection system, and wastewater treatment facility. Within the Village there are two existing wells, two reservoirs, a sanitary sewer lift station, the utility building, and the wastewater treatment facility that all utilize Supervisory Control and Data Acquisition (SCADA) equipment to communicate with Village staff related to operations and conditions of the infrastructure. The sites communicate with and through one another via fiber and radio antennas. The two existing wells in the Village have been identified by the Wisconsin DNR as needing space to isolate chemicals. This is also a desire of Village Staff to ensure worker safety and equipment longevity. An additional well and lift station are anticipated to be installed in the near future. On May 4th, 2020, each of the sites were visited and reviewed to assess condition, age, and compatibility with proposed new infrastructure construction.

- Well #1: This well is located at the northernmost end of East Street, on the western side of the Village. The well and well house was originally constructed in the 1950s, with communications equipment being installed in 2006. Chemicals, electrical equipment, pumping equipment, and general storage are all present in the 18'x24' space. Noted deficiencies at Well #1 include:
  - Isolated chemical storage and containment space
  - General building and components condition due to age (windows, doors, HVAC)
  - Aging motor controls
  - Aging/obsolete process controls
  - Aging communications equipment
  - Aging backup power equipment
- Well #2: This well is located at Baer Park, within the concessions/restroom building at the park on the east side of the Village. The well and well house was originally constructed in 1973 with communications also being installed in 2006. Chemicals, electrical equipment, pumping equipment, and general storage are all present in the 12'x18' space. Noted deficiencies at Well #2 include:
  - Lack of isolated chemical storage and containment space
  - Non-code compliant clearances related to electrical equipment
  - Aging motor controls
  - Aging/obsolete process controls
  - Aging communications equipment
- Large Reservoir: The large water reservoir for the Village is located on the southern end of the Village between Ludden Drive and Tilda Trial.
- Small Reservoir: The small water reservoir for the village is located on the northern end of the Village off of Hillside Trail.
- St. Francis Lift Station: The sanitary lift station is located off of St. Francis Street, in the Laufenberg neighborhood, near Raspberry Park. The lift station, electrical equipment, and controls were installed in 2002.
- Utility Building: The Public Works building was constructed in 2005 and includes a SCADA workstation and the main Programmable Logic Controller (PLC) within the master panel.
- Wastewater Treatment Facility: As a part of the 2005 treatment facility upgrades, PLCs were located in 3 structures to control the various processes required for treatment.

- Future Well #3: The proposed Well #3 is planned for being located in Hollfelder Park, on Gil's Way, in the southwest portion of the Village.
- Future Scenic Valley Lift Station: A new sanitary lift station will be constructed as a part of the Scenic Valley development, on the southwest end of the Village.

Upon review of the sites and the need to incorporate future infrastructure into the communications system, it is anticipated that various SCADA upgrades will be required Village-wide. This includes replacement of obsolete PLCs, replacement of radios and communications hardware, and replacement of undersized or deteriorating control panels. Additional process control enhancements include installation of new drawdown sensors at the wells, replacing pressure transducers at the reservoirs, and installing level transducer with backup float control at the lift station. A preliminary estimate of the costs associated with replacement and upgrades of SCADA equipment to existing infrastructure in the Village is $400,000.

In addition, due to safety considerations and to isolate corrosive chemicals from new electrical components, chemical room construction at each well house is desired. At Well #1, a building addition to the west would afford the space required to construct individual chemical storage spaces for chlorination and fluorination chemicals. Due to the age of the well house and the structural expansion, it is anticipated that enhancements will be required to update the facility to current energy codes. Additional work would include window and door replacements, insulating walls and ceilings, construction of a new roof, and subsequent installation of new HVAC equipment. Utilizing the existing structure and completing the upgrades as outlined, a preliminary estimate of the costs at Well #1 is $515,000.

Due to the adjoining park shelter at Well #2, chemical room construction is limited to expansion into the existing park restroom facilities. By expanding within the footprint of the existing shelter, a building addition would not be required, however new restroom facilities would be needed at the park. Removing chemical storage from the well pump room space could also allow for a revised electrical layout to ensure sufficient clearances are provided in front of electrical panels in the space. To repurpose the current restrooms into chemical storage spaces and construct a new restroom at the park, a preliminary estimate of the costs at Well #2 is $395,000.

SCOPE OF SERVICES
MEMORANDUM

Date: June 15, 2020

To: Board of Trustees
Village of Cross Plains

From: Brian Berquist, P.E. – President
Town and Country Engineering

Subject: Water System Improvements Study – Phase 2

The Village of Cross Plains has completed a Well Site Investigation report and begun preliminary design of a proposed new Well No. 3. The Well Site Investigation report has been approved by DNR, but the approval requested construction of a test well at the site of the new well to confirm aquifer assumptions for the final well construction and rule out the possibility of contaminants. As a part of the preliminary design, each of the Village's water well sites was visited and reviewed to identify potential improvements that may be necessary. This was also to follow up on needs identified in the Village's last sanitary survey completed by the Wisconsin DNR, which identified chemical containment as an issue. This review identified multiple areas needing improvement to bring these sites up to today's codes and standards. This scope of services will serve as a stepping stone for the Village to identify necessary future projects, the scope of improvements necessary, the cost of those improvements, and a potential timeline for those improvements.

The Scope of Services is anticipated to be broken up into 4 areas of consideration as follows, and summarized in a following table:

1. Test Well Coordination
   A test well approximately the same depth as the proposed final well will be constructed. Samples will be collected as drilling occurs to confirm geological formation assumptions. The well will be test pumped to confirm anticipated volume of water and aquifer characteristics. Water samples will be collected and analyzed for potential contaminants. The engineering scope of services will include:
   - Coordination with DNR as necessary for test well approvals.
   - Preparation of a simple specification for test well scope of construction.
   - Obtain quote(s) for test well construction services for Village approval.
   - Coordination with well driller throughout the course of test well construction, pumping, and testing.

2. Water System Master Plan
   Based upon the needs identified in reviewing the Village's water system sites, a water system master plan is recommended. This plan will identify a long term approach for the Villages existing and future water system components. The engineering scope of services will include:
   - Formalize current and future water needs.
   - Identify capacity restrictions in supply and storage.
   - Identify a range of potential approaches to current and future water system supply and storage.
   - Prepare capital cost estimates and a qualitative evaluation for each alternative.
   - Prepare a recommended approach.
   - Submit a report to the Village and DNR.

3. Impact Fee
    - Work with the Village's Accountant to prepare an impact fee assessment. This work has already begun under the previous scope and will continue as necessary based upon the findings of the Water System Master Plan.

4. Preliminary Design Services
   It is anticipated that the Water System Master Plan will recommend improvements to some or all of the Village's existing water system components. Preliminary designs will be prepared to expand upon the approach established in the water system master plan. Preliminary design will include:
    - Preparation of preliminary site and building improvement plans
    - Preliminary equipment sizing
    - Updated cost estimates
    - Development of a preliminary specification.

The estimated engineering cost for the above scope will be billed on an hourly basis and **will not exceed $80,000.** It is anticipated these costs will occur through December, 2020, after which time final design will be pursued. Costs for future phases can only be estimated at this time until the scope is better defined and a final project is determined by the Village.

Work Element	Estimated Engineering Costs	Estimated Construction Costs
Well 3 Site Study and Begin Preliminary Design	$42,000	N/A
Test Well, Water System Plan, Impact Fee Study, Complete Well 3 Preliminary Design	$80,000	$50K - $60K
Well 3 Final Design and Construction	$140K - $160K	$1.8M - $2.0M
Wells 1 & 2 Improvements	$75K - $85K	$900K - $1.0M

The scope of services outlined above does not include the items listed below. It is anticipated that many of these items will be necessary for completion of the projects identified in this approach. Proposals can be developed for these items as necessary.

- Final design of water system facilities
- Soil borings, environmental reviews, wetland delineations, etc.
- Construction services

We at Town & Country Engineering, Inc. wish to thank you for the opportunity to present this scope of services to the Village of Cross Plains and look forward to continuing to serve you. If you have any questions regarding the above scope, please feel free to call.

Village of Cross Plains
Water System Needs Assessment
Engineering and Planning Cost Summaries
6/25/2020

There are several decisions for the Village to make regarding the immediate and long-term water supply and storage system, as well as the most advantageous funding mechanisms. The need for a new Well #3 is due primarily to "firm well" capacity - the ability to maintain service with your largest well removed. The Village's population has grown while the reservoir capcity is constant (limiting the ability to store water) and production has fallen at Well 1 due to sand formations.

To make the most informed decisions about how to scope out the Well 3 project, and determine what (if any) improvements at the existing wells and reservoirs would be included (to maximize grant/loan opportunities), we recommend that the 4 work tasks in our June 20 memo be prioritized in light of the limited budget available.

We understand that the remaining 2020 budget for Well 3 preparations will be sufficient for some of the task items in the 6/15/20 memo to begin, but not to be completed. The chart below shows a potential priority order for Village consideration, focusing the remaining 2020 effort on providing detailed alternative scenarios to the Board and associated cost implications to allow for Board decisions to be made to best maximize access to funding programs and to fully take advantage of the impact fees available from pending developments. The remaining work would only proceed if included in the 2021 budget.

Item	June 15, 2020 Proposal	2020 Budget Remaining	Revised Scope

(a) The District shall pay the Village an amount equal to that paid to the Village of Cross Plains for SRO wages, fringe benefits, overtime, and related officer compensation incurred over a ten-month period, not to exceed actual costs incurred by the Village. MCPASD will make payment to the Village in two installments. The first installment, payable no later than January 31, will be 50% of the prior year's total payment. The second installment, payable no later than July 31, will be the amount needed to equal the amount paid to the Village of Cross Plains or actual costs incurred by the Village.

(b) The District shall contribute 50% of all unemployment compensation costs if an SRO position is eliminated due to action of the District causing the Village to eliminate an officer position.

(c) By June 30 of each year, the Village shall provide a statement of costs of the Program for the prior school year which shall be paid 30 days after invoicing.

(d) The SRO shall not be required to work hours that would result in overtime pay without prior Police Department approval in accordance with Police Department Policy.

(b) The District Superintendent, in his or her sole discretion, may direct the removal of any person serving as SRO from the District's property. The District shall immediately disclose any and all facts underlying such determination to enable the Village to determine whether such person may suitably continue to serve as SRO or be reassigned to other duties and to help evaluate the designation of an alternative candidate to serve as SRO. The removal of any person serving as SRO from the District's property by the District Superintendent shall not be considered as discipline of the officer. Discipline shall only be imposed where the Village determines that there is reasonable basis to conclude that such action is appropriate under the circumstances.

(9) **Term and Renewal.** This Agreement commences the date last executed by the parties and which is set forth above and expires on June 30, 2021.

(10) **Liability and Indemnity.**

This section shall not apply to liabilities, losses, charges, costs or expenses caused by or resulting from acts or omissions of the party seeking indemnification, its officers, employees, or representatives.

(c) Nothing contained within this Agreement is intended to be a waiver or estoppel of either party or their insurer to rely upon the limitations, defenses, and immunities afforded to the party by Wisconsin Law. (12) **Severability.** Should any one or more of the provisions of this Agreement be determined to be invalid, unlawful or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions hereof shall not in any way be affected or impaired thereby unless as a result the purpose and intent of this Agreement shall thereby be substantially and essentially impaired. In the event that any provision is invalid or enforcement or compliance therewith has been restrained as above set forth, the parties shall enter into immediate negotiations for the purpose of arriving at a mutually satisfactory replacement for such article or part.

Village of Cross Plains Meeting Instructions and Tips

Participation in Village Meetings

The public may participate in Village meetings in various ways.

Attending in Person

The Village Board currently hosts its Village Board and Plan Commission meetings in the Community Room at the Rosemary Garfoot Public Library. Due to space constraints the room is limited to the Board/Commission and an additional five (5) people. These spaces are reserved first for people with disabilities that may need accommodations in order to participate or monitor the meeting. Other participants are strongly encouraged to attend virtually or by phone. Comments made virtually or by phone will carry the same weight as those made in person. The Village Board may, from time to time, allow for participants who would like to speak in person to rotate in and out of the room depending on the spacing availability at that time.

All other committee meetings are currently only being held virtually.

Attending Virtually

Participants may observe and participate in Village meetings remotely.

Direct link – Web meeting

Participants may click on the **ZOOM Virtual Meeting Link** (see image below) at the top the Village Board Agenda or in the email sent by the Village Administrator. The meeting link on the agenda will take you to the Zoom website or it will open the Zoom Application. Participants may choose to download the Zoom Application or access Zoom through the web browser. Alternatively, participants may also type in the link into the URL address bar to bring the participant to the meeting. All participants should check their computer's capacity prior to the meeting.

NOTE THAT THE MEETING ID LINK WILL CHANGE FOR EACH TYPE OF MEETING. THEREFORE, THE MEETING LINK MAY CHANGE. PARTICIPANTS SHOULD MAKE SURE THAT THE THEY ARE USING THE LINK ON CURRENT AGENDA TO ACCESS THE CORRECT MEETING.

II. Public Comment – This is an opportunity for anyone to address the Village Board on **ANY** issue **EITHER ON OR NOT ON THE** current agenda. *Please observe the time limit of 3 minutes.* While the Village Board encourages input from residents, it may not discuss or act on any issue that is not duly noticed on the agenda.

THE MEETING ROOM WILL BE OPENED 30 MINUTES BEFORE THE MEETING TO COLLECT REGISTRATIONS. TO REGISTER A PUBLIC COMMENT AT THIS TIME YOU WILL NEED TO RAISE YOUR HAND VIRTUALLY TO BE UNMUTED. TELEPHONE PARTICIPANTS WILL ALSO BE UNMUTED ONE AT A TIME DURING THIS PERIOD TO ENSURE THAT NO ONE IS MISSED.

Registration of Comments

The public comment section has been revised to allow public comment in any topic **ON OR NOT ON THE AGENDA.** Those wishing to speak must register before the meeting to do so. Participants can register to speak by notifying the Village Administrator ahead of the meeting. Please see the following methods:

Written Comments

At any time, anyone who is interested in submitting a written comment may do so by emailing the Village Administrator at bchang@cross-plains.wi.us or in writing to Village Board, P.O. Box 97, Cross Plains, WI 53528. The written comment will be read to the Village Board at the corresponding meeting.

Public Comments

Anyone wishing to make a public comment at a particular meeting must register to do so prior to the start time of the meeting. Those wishing to speak are encouraged register their comment by sending an email to bchang@cross-plains.wi.us ahead of the meeting. Registration by phone may also be done during business hours prior to the meeting.

In addition, the meeting room will be opened 30 minutes before the meeting to collect registrations only. Those participating by phone will need to identify themselves and the issue for which they would like to speak on.

All lines will be muted at the start of the meeting. During the Public Comment Section, each registered participant will be called upon, unmuted, and shall have 3 minutes to speak. Once the Public Comment section of the meeting has concluded, all participants will be muted for the remainder of the meeting so that the governing body may continue with its meeting. The governing body may call on a presenter or participant for clarification at any time during the meeting.
